# Orillia clinic the first in Canada to offer latest medical technology

According to co-owner Blade Tiessen, no other device delivers this kind of impact so quickly.

May 5, 2025 7:00 AM

**C**elebrating 25 years in Orillia, multi-award winning [Anti-Aging Clinic](#) is excited to be the first in Canada to offer a first-of-its-kind medical technology for body-sculpting, muscle definition, strength and wellness.

Pure Impact® is the latest energy-based device created by Sofwave® Medical that emulates a variety of real plyometric movements. Plyometric movements are movements of explosive power, such as jumping squats, providing a force that gives a full-body effect in one shot.

The clinic has had the device since August, working with their VIP patients to experience the results for themselves before releasing it to the public. Although there are other devices out there that perform similar muscle stimulation, co-owner and medical aesthetician Blade Tiessen says he can't believe what Pure Impact® achieves in only two weeks.

"So far our patients' results have been incredible," he says. "Its also perfect for combatting muscle loss from GLP-1 weight-loss drugs like Ozempic®."

Other older devices work muscles out individually in one direction, but the fourth generation Plyopulse® technology in Pure Impact® works differently— contracting muscles anatomically in synchronization, targeting several muscle groups together, similar to actual exercises. Its safe for everyone over 18, including seniors who may have limited mobility, as it causes none of the strain on joints that are common with high-impact exercises.

Although recipients of the treatment will feel muscles contracting, the treatment is painless and quiet, so watching a show or even chatting on the phone in Blade's beautiful state-of-the-art clinic makes it an enjoyable experience. A quick 30 minute session treats the full body, stimulating various muscle groups for optimal performance and faster results.

The treatment stimulates muscle groups, with a focus on areas like the stomach, obliques, thighs and buttocks, building maximum muscle tone and fat burning in minimal time. It is also about to be Health Canada-approved for use on the upper arms.

For patients with loose skin in the areas being treated, Sofwave® can be bio-stacked for a complete non-surgical solution that can last for over a year. Aside from the aesthetic results like increased muscle definition and fat reduction, Blade says that older patients report Pure Impact® has helped them with incontinence, which would normally require the use of multiple older devices and three times the time to treat.

Improved posture, flexibility, stability and strength have also been reported after the first session. Further increases were experienced with each of the 4-6 typically recommended treatments, spaced over a 2-3-week period.

Anti-Aging Clinic was the first in the Orillia area to specialize in energy-based devices for both face and body-sculpting, becoming internationally known over the years for teaching these non-invasive treatments across North America to celebrity doctors. Blade has an impressive 40 years experience in the industry.

When it comes to energy-based devices, Blade says the results will always look natural because they're stimulating your own body's natural processes. "They will just make you look better, brighter, firmer, tighter and lifted."

The clinic is also the longest provider in Orillia to offer cosmetic injections—a job that they take seriously, only allowing doctors to perform them for the past 25 years.

In addition to their decades of experience, Anti-Aging Clinic has also won numerous awards for their expertise, including 44 Readers!#Choice Awards, 3 Chamber of Commerce Awards, and Best Medical Spa for Ontario for 2024 and Best Botox Clinic for Ontario for 2024 and 2025, from Corporate Vision Magazine.The clinic has also been awarded the Sofwave® Centre of Excellence for Canada in 2023, and in 2024, Blade was inducted into Marquis Who's Who of the World.

Anti-Aging Clinic is now offering Pure Impact® to everyone with a promotion for 15% off until June. Complimentary consultations are available.

For those curious about Anti-Aging Clinic's treatments, Blade encourages people to reach out to the clinic. The team is happy to provide expertise, and answer any questions about the advanced non-surgical aesthetic procedures they offer.
