

Best Aesthetics Clinic 2026 - Ontario

Anti-Aging Clinic & Dispensary is co-owned by internationally-renowned medical aesthetician, Blade Tiessen along with co-owner and aesthetician Ben Tiessen who work closely alongside associates, Dr Rodney Land and Dr. Jeff Pritcher. Together they possess more than seven decades of combined skin experience to provide safe industry-leading non-invasive cosmetic dermatology, body sculpting and many wellness therapies.

For 26 years, Anti-Aging Clinic & Dispensary has been specializing in cutting-edge technology and for the past 9 years they have focused on working with medical grade, organic and natural products, while following only the most advanced industry protocols ensuring the safest, most effective treatments leaving every patient looking and feeling their best.

Blade Tiessen is a true pioneer, celebrating 40 years as a certified aesthetician (34 years medical), he was the first to specialize and educate internationally innovative techniques such as medical micro-needling, RFMN (radio-frequency micro-needling) and PRP (platelet rich plasma) skin injections.

Blade is an expert in using state-of-the-art technology his current favourites are Sylfirm X® radio-frequency micro-needle, JetPeel®, Sofwave®, and ElaProMed™, making the clinic the only in the region to offer such sophisticated, world-class, skin-loving treatments.

Stating that Anti-Aging Clinic & Dispensary is “not your average Botox® clinic” is not an understatement, they are however the areas longest provider of cosmetic injectables. Blade however tells us the clinic remains focused on delivering results using “bionic beauty”, a term he coined to describe how the clinic bio-stacks various non-invasive energy based devices to not only improve most skin concerns like acne and rosacea but advanced facial rejuvenation, lifting, wrinkle and pigmentation reduction all naturally and without injectables. The clinic was also the first in the community to incorporate body sculpting back in 2006 and now feature emerging technology like Pure Impact® for advanced muscle enhancement, FlexSure® for permanent fat reduction and skin tightening to help patients sculpt their perfect body non-surgically.

The clinic further features many wellness therapies like the popular POD's a personal reset/ retreat bio-stacked with sauna, vibratory massage, oxygen and aromatherapy. The clinic also features the areas only full body red light collagen-stimulating booth, whole body vibration, a relaxing aromatherapy oxygen lounge, and opening in May, the areas first salt vault which is similar to a salt cave but its being built into an old bank vault for added uniqueness.

Always working closely together the team keep honesty, confidentiality, and communication at the core of everything they do and are committed to educating patients and tailoring their experience to make sure the patient's unique needs are met as naturally as possible.

“Always great to be treated by professionals who are knowledgeable and excellent at what they do!” - A patient review on Fresha

Overall, Anti-Aging Clinic continues to prove itself a true force to be reckoned with, owed in-part to its 26 successful

years in business, 5 star reputation, investments in incredible technology, local and international awards paired with its educated, dedicated, and talented team who deliver exceptional service, achieving beautiful, natural-looking results for their valued patients which shows on-line with hundreds of five-star ratings so we conclude by taking a look at some patient reviews.

“Blade is excellent! I am always happy with my results! The clinic is very clean and professional!”

“I’ve been going to see Ben and Blade for amazing treatments, Sylfirm and Sofwave, for over a year now. Best skin investment you will ever make, period!”

“Great place to go with very knowledgeable, friendly staff. The clinic is very beautiful and clean! Had the best relaxation massage while I was getting a consultation. Thank you!”

“Amazing! Super knowledgeable about all procedures. Honest, friendly, and an all-round great experience! Can’t wait to see the results and will most certainly be back!”
